# Million Dollar Bill INSANITY

What a month this has been! After someone tried to deposit one of our [Million Dollar Bill tracts](#) in North Carolina bank, Secret Service agents seized 8,300 of them from our sister ministry "[The Great News Network](#)" in Texas on the charge that they were "counterfeit" bills. The problem is--you can't counterfeit something that *doesn't exist*, and there is *no such thing* as a million dollar bill. Besides, you would think that having, "Department of Eternal Affairs," "Thou Shalt Not Steal," "[www.WayOfTheMasterRadio.com](#)," and "THIS NOTE IS NOT LEGAL TENDER," on the front, along with a 170 word gospel message on the back would be a clue that this isn't a government issued bill.

[Darrel Rundus, the head of The Great News Network, was interviewed](#) about the incident, and it suddenly became national news. This caused a run on the tract, and we went through 500,000 in one day. We immediately put in an order with our printer for a million and a half more, [and we now have a partial print available](#). The Great News Network's lawyers are taking the Secret Service to court to try and get the property back (the tracts were seized without a warrant). We will update you as this takes shape.

Meanwhile, a brother named Chris Bowen was giving out Million Dollar Bill tracts in Las Vegas from his wheelchair (he has Muscular Dystrophy). Suddenly he was approached by a Secret Service agent who threatened him with arrest for passing out counterfeit money, seized his tracts, and said "Living Waters is in big trouble." Chris now has lawyers representing him for the infringement of his First Amendment rights.

We have been expecting a visit from the Secret Service since the first incident, but haven't yet heard from them. If they do give us a "cease and desist" order, we will stop sales immediately. In case that happens, [we have printed 100,000 of a special "Secret Service Version" \(it says that in the seal\)](#), which complies with their specifications for those making copies of currency that actually exists—that is to say it is 1.5 times the size of a normal bill. (We have always followed this requirement when copying bills that actually exist. A good example of this is our [Giant Money](#), which is an oversized copy of a \$100 bill... or [Big Money](#), which is an oversized copy of a \$1000 bill.)

We hope that the Federal Government will be consistent in their desire to seek justice. They have a huge job ahead as a [Google search on "million dollar bill"](#) returns more than 38,000,000 results; including *hundreds* of for profit businesses producing genuine-looking million dollar bills. Since 2002, our ministry has produced more than 5,300,000 million dollar bill tracts--if the Secret Service intends to try to round those up, they are certainly going to have their hands full. Meanwhile, the country is at war, terrorism is a real threat, and our borders are busting. This cartoon published in the [Dallas Morning News](#) editorial sums up the fiasco.

## Open Air Preaching Chart

If you are preaching open air check out this [open air preaching chart](#). All the work has been done for you free of charge. Print this off and then have it enlarged at a photocopy business. This flip chart includes questions to draw a crowd, the good test, the evolution offer, scientific facts in the Bible and more... Ray sometimes uses this on an easel to help draw a crowd for open air preaching.

## Open Air Preaching

Please note. Ray and his team preach open air each Saturday at 1:30 PM the base of the Huntington Beach pier in Southern California, using a 6' 6" gorilla named "Link" to draw a crowd. Someone overheard a youth who was walking towards the pier wonder aloud what was happening. His friend replied that it could be a preacher, to which he responded, "A preacher would never get a crowd that size." Link helps pull them in. That's why we are taking him with us on a plane to the Denver Christian Bookseller's convention. He will help to draw attention to our new [Intelligent Design versus Evolution](#) book. His legs will be checked in, but we have booked a seat for his huge torso. We will film passengers' reaction as they board the plane.

### Helping Agencies Get on Their Feet

We thank God for our agencies in different parts of the world. It is a huge step of faith for each one and large personal and financial commitment (each agency is completely autonomous). Most people don't realize how much money has to be invested in stock, just to make our products available. As much as we appreciate your financial support for us in the United States, please feel free to support these dear folks who have put their money where their mouth is, to reach the lost.

## Heart Attack in the Gym

*Sent in to us from Melissa B. of McAllen, TX*

The other day I was at work in a large gymnasium with about 100 excited children (I'm running a summer camp) when a Federal Express Worker stumbled in and mumbled that he thought he was having a heart attack. He sort of collapsed on to the floor. I asked my employees to get the children out of the gym and to call 911. I am CPR/First Aid certified so immediately I began to extend care. We could not tell if he had in fact had a heart attack, was having a heart attack, was about to have a heart attack or it was something else. In any case, he was talking and breathing very fast so I put him a recovery position and waited for the ambulance. He was very scared--VERY SCARED and in pain. His eyes showed me intense fear. Then he began to say, "I'm not going to make it, I'm not going to make it." Immediately, I thought, "*He's right! He might **not** make it!*" And at that moment, the seedsower in me woke up! I began to ask him if he knew of Jesus and if he had asked Jesus to save him. I went through the Law. I asked him if he understood how much he'd sinned against our holy, perfect, and righteous God and if he understood his need for a Savior. He looked me in the eyes and said, "YES!" I told him to ask for forgiveness and to ask Jesus to save him from his sin. Although it was difficult for him to speak, he prayed out loud. My heart was racing so fast as I prayed for him silently and encouraged him to remain awake until the ambulance arrived. As the ambulance got there he grabbed my hands and thanked me. I was so anxious to know what happened to him that I called the local Federal Express office and they were kind enough to give me his personal cell phone number. I called and spoke to his daughter. He had a heart attack in the ambulance on the way to the hospital, and had to have surgery. He was in the ICU at first, but he is now in stable condition. I am going to visit him when he goes home, to talk to him about what happened and the prayer he said to Jesus. I've also started working on a letter I want to give him about God sparing his life at this time and what he's planning to do with it. TO GOD BE THE GLORY!

## Heart Attack at the DMV

*Sent in to us from Chris of Baton Rouge, LA*

On Wednesday, May 31, 2006, I went to the DMV to open air preach to the line of about thirty

people waiting to enter. I began with the obituary section of our local paper. There were 28 names and photos of individuals that had died in our community and I used it as a springboard for the message. (I saw Ray use a version of this message to talk about why we all must die and how sin and the law ties it all together.) I brought them through the Law and explained that I believe most people don't really consider death on a day to day basis because we have plans. Plans for a wedding, graduation, birthdays, and anniversaries and we believe we will be there. I asked them to look and see if they have the date of their death on their day planners or calendars. I told them of the grace of God and how Jesus satisfied God's judgment in our place. When I was finished, I handed out tracts and Bibles to anyone who wanted them. It was two minutes till the DMV would open, so I hung around to pick up any tracts that people might have thrown on the ground. But just moments after the line of people began going in, a woman came out and was frantically looking down the street. I asked her if everything was alright and she said one of the women in the line was having a heart attack. They had called an ambulance and she was standing outside to flag it down when it arrived. All the people in that line were watching as EMS loaded this woman onto the gurney and wheeled her out to the ambulance. I prayed for her physical health as well as her soul. I do not know if she survived, but if she did I wonder what kind of conversation she had with her family when they got to see her. I wonder what went through the minds of the others in line as they saw for themselves how fragile life is. That was the weirdest thing that has ever happened to me to date as a witness for Jesus.
